ABOUT POWER SHAYER

Power Shaver is the manufacturer's international distributor for the USES®, Universal Shunt Efficiency System. Our technology is UL, CSA, CE and GSA verified and has been installed in facilities around the world for over 28 years.

Reduce Carbon Footprint Per Mandates

Reduce Electrical Costs Per Mandates

Reduce Demand and Consumption

Reduce Harmonic Distortion

Increase Power Quality & Condition

Prolong Equipment Life

Increase Power Factor

Provide Surge and Spike Protection

Meet Facility Monitoring Mandates

ADVANTAGES

The patented USES® technology is a dynamic, maintenance free, resonance free, magnetic field induction system that reduces kW demand, kWh consumption through five methods, along with two forms of surge protection:

- * Power Generation
- * Magnetic Phase Balancing
- * Passive Resonance Free Power Factor Correction
- * Transient Energy Conversion
- * Harmonic Filtering of Non-Power Current

SATISFIED CUSTOMERS

USS Missouri Battleship Memorial

U.S. Coast Guard

U.S. Naval Hospital

U.S. Embassies

Federal Courthouse

Department of Homeland Security

GSA Heating Operation & Transmission

U.S. Postal Service

U.S. Corps of Engineers

U.S. Marine Corps
