Rick Sparacio

Elite Electric

1850 Humboldt RD., Suite 69

Chico, California 95928

The Castle Press contracted with Elite Electric to have (8) USES - 208 volt 3 phase units installed in late December of 2009. This installation was completed in a very profession manner in less than one week.

Since that date we have calculated our monthly savings to be a 13% reduction in the power costs that would not have occurred without the USES units. This has been during the winter months and we anticipate a higher savings during the summer months. Our Power Factor has also increased from .88% to .99% which adds an additional \$100.00 credit to our electric bill per month.

These (8) units are also providing over 9,000 combined Joules of surge and spike protection for all of our electronics within our facility.

Sincerely,

A handwritten signature in black ink that reads "Robert Wills".

Robert Wills
