

2-4-14

Hi Anthony,

Thank you so much for following up with us last year on the USES® (Universal Shunt Efficiency System).

It has made a huge difference in our electricity bill. Of course, it's always nice to reduce the cost of electricity; what I also truly like is the use of less electricity. Electricity is not (always) a renewable resource; we all need to be aware of things we take for granted.

If you would like to use our bill comparisons to show prospective clients, you're more than welcome to do so.

Thank you again,

Patty

(Installed at Dixon home; 3kw Solar panels already in place)
